

CLOSING CEREMONY, 2017

DATE	April 25, 2017
TIME	9:30 am onwards
VENUE	Sangam Parisar

Brief Report

April 25, 2017 marked the closing ceremony for the batch 2014-2017. The ceremony was organized by the Department of Mathematics under aegis of the Head of Department, Ms. Charu Khanna.

It was indeed an overwhelming experience as third year students get ready to take flight similar to little hatchlings leaving their nest. It was a moment to express emotions as the final year students would soon part away after a wonderful journey of three years of togetherness.

Although it was an emotionally overwhelming experience, it was a moment of celebration too. The occasion was marked with cultural activities including dance performances by first and second year students. The second year students also presented a classroom scene, mimicking some teachers of the department.

After the cultural program, second year students presented a slide show of photographs of the third year students capturing cheerful moments in the college. This was followed by teachers and students sharing their experiences and memories with each other. Anshul Jain from third year shared her personal views and experiences she had with each student of her class. The ceremony was culminated with a group photograph of parting students with the Principal and faculty of Mathematics Department. The group photograph along with an individual photo will be presented to each student in a folder.
