

## **Feedback Committee**

Feedback from its stakeholders is an integral part of the development of an institution and as the College believes in greater accountability and efficiency it relies on the feedback received for further growth and enhancement of the student experience.

The Feedback Committee conducts feedback sessions every semester. The Feedback is received from:

1. Students
2. Parents
3. Teachers
4. Alumni

The Feedback is collected both manually as well as online on the College Website. The forms are distributed to the stakeholders during informal interactions and are available on the website as well.

Analysis of the feedback is done and the results and outcomes are discussed for further improvement and the changes are then implemented.
