

Two Day National Conference on "Urban Environmental Sustainability"

organized jointly
By

**Kalindi College
And MGICCC**

On
7th-8th February 2019

Venue:

**Kalindi College,
University Of Delhi
East Patel Nagar, Delhi-
110008**

About The Institutes

MGICCC:

Mahatma Gandhi Institute for Combating Climate Change (MGICCC) was initially established as Mahatma Gandhi Institute for Integrated Rural Energy Planning (MGIIREPD) as a joint venture between Planning Commission (Government of India) and Government of NCT of Delhi (GNCTD). Later in 2007, the joint venture was discontinued, and the Institute was renamed by GNCTD, as Mahatma Gandhi Institute for Combating Climate Change (MGICCC) on 30th January 2009.

The mission of the institute (MGICCC), as enunciated in the relevant order, is to combat climate change and serve as a strategic knowledge centre.

Kalindi College:

The College was established in 1967 and as a constituent college of University of Delhi,

Kalindi's motto शीलं conveys three virtues of human life: knowledge, modesty and sense of duty. During all these years, the college has not only made substantial progress in the field of education, but also immensely contributed in the Nation building. The college strives to provide an intellectual environment for the emancipation of the intellect and spirit that stimulates both critical thinking and imagination.

Concept Note

Urbanization is a global phenomenon and more than half of the World's population is living in cities and towns. India is also witnessing rapid urbanization and is a part of the global trend towards increasing urbanization. High rate of population growth, declining opportunities in rural areas and shift from stagnant and low paying rural agricultural sector to more rewarding urban occupation, largely contribute to rapid urbanization. In many cities the rapid population growth has overwhelmed the capacity of municipal authorities to provide even basic needs. Rapid escalation of population and unconstrained urbanization has given rise to critical problems like air, water pollution, transportation problems, resource constraints, health and sanitation issues, energy crises, waste management related problems and all need to be rectified.

About The Conference

A two day National conference has been scheduled, 'Urban Environmental Sustainability' for the University/ College teachers/ Researchers/ students etc. in Delhi with the focus to discuss about the challenges in ensuring urban sustainability and the steps required for ensuring the same.

Objective of Conference

The objective of the conference is to provide an academic platform to discuss the major challenges in ensuring sustainability in the urban areas and to bring out the innovative ideas in this domain. The conference would benefit its participants in knowing the major challenges and in finding the strategies to solve such challenges in urban environmental sustainability and would be a great learning experience and to promote and build a closer relationship between theory and practice, with the goal of creating awareness about the urbanisation and environmental sustainability in urban areas.

Panel Committee

Eminent professionals, scientists, academic researchers specialized in the subject of urban sustainability are to deliver key note lectures during the two day National conference
